**21. (continued) COMMENTS/HISTORICAL INFORMATION:**

The buildings and sites in this survey area that have never been documented on inventory forms are located adjacent to the 1983 National Register Historic District and 2006 Local Historic District. They were built between the 1920s and 1990s. Although the majority of these buildings do not reflect the surrounding architectural styles and are more contemporary in design, they do not detract from the character defining features found throughout the existing historic districts. The history of each building is noted on each inventory form. There are 54 buildings, 14 vacant lots and two demolished building in this survey area.
