### C'ville Methodist Episcopal Church (TAC-25)

The first Methodist received into membership in Campbellsville was in 1831, with a church officially organized in 1844. Originally, this was the site of several log houses until the Methodists built the present two-story brick First United Methodist Church building in 1921. The land was donated by W.S. Hill, Edward Hill, and A.C. Hill. Pastor Rev. J.L. Piercy presided and the chief architect and contractor was J.T. Phillips.

The central portico is supported by tapered stone columns. A large round stained glass window pierces the façade. The bell tower has been removed. The building was remodeled after a fire in 1940. In 1977, the building to the west was converted into an educational building and fellowship hall.
